THE 1½ CF AND 2¾ CF SPHERICAL CUBES

The MCF133-SphCube-A6 Spherical Cube is a six port Multi-CF miniature UHV vacuum chamber consisting of a hollow sphere intersected by six 1½ CF sealing surfaces. The MCF275 Spherical Cubes are six to twelve-port Multi-CF miniature UHV vacuum chambers, consisting of hollow spheres intersected by four to six 2¾ CF sealing surfaces and/or zero to eight 1½ CF sealing surfaces. Interior space has been greatly increased over previous designs. Each 2¾ CF sealing surface has one pair of Grabber Grooves. Two to eight external tapped holes allow mounting without utilizing the gasket crushing bolts. The holes may also be used to attach small heaters for chamber bake-out.
